June 2015

Working together to create a new Portesbery

We are in the middle of the next lot of site visits for staff, our Health Team and the Governors and the responses have been consistent – WOW! The changes inside continue to gain momentum, there is a lot of white paint on the walls but many of the coloured feature walls have been painted in more vibrant colours ensuring that it is a fun and welcoming environment. The hoisting equipment is beginning to be installed and the carpet fitters are in from next week. However, there is still a lot to do.

The outside grounds are looking amazing and we are all really excited to see how the children will respond to the space and range of equipment that will be on offer which will include more swings, a wheelchair swing and roundabout, a bike track and trampolines!

With the delay in moving and the extended holiday time that you, our families, will have over the October half term, we are in the process of identifying some support that you may be able to access in the second week, when the school would have normally returned. Once this has been finalised, we will pass on more details.
